

A FINN SAILOR RUNS AMUCK.

KNIFING TWO WOMEN AND TWO MEN IN A BARROOM.

One Victim Lays No Much Blame to Being Injured in Fight, But Says He Was Not to Be Blamed for It. He Said He Was Not to Be Blamed for It. He Said He Was Not to Be Blamed for It.

A Finn sailor, known as Andy, after a night's debauch in the barroom, ran amuck yesterday afternoon in the barroom of the Greenview House at 106 West street, opposite the Courtlandt street ferry.

With a big-bladed clasp knife he slashed at everybody within reach, and cut two women and two men. The women, Mrs. Kelly, 33-year-old, and Mrs. 106 West street, Jersey City, is likely to die. The others were wounded only slightly.

Andy's last name was said to be Nag. He was in and out of the Greenview House all yesterday morning. A fellow sailor, Andrew Delamare, says that Andy was feeling out of control. He had spent \$90 foolishly the night before. He was in company, Delamare says, with Maggie Kelly, known at the saloon as Maggie Casey. The girl jilted him for some later admirer. Early yesterday afternoon, Delamare says he met Andy outside the Greenview House. He saw him go in and he saw him come out. He saw him go in and he saw him come out.

Finally he went into the barroom to see if he could find him. He saw him go in and he saw him come out. He saw him go in and he saw him come out. He saw him go in and he saw him come out.

OUR DEFENSES AGAINST CHOLERA.

Perils Just from Infected Districts of Italy Found in the West.

Health Officer Smith's report of the cholera patients found in the harbor yesterday was encouraging. All were doing well, and there are no new cases. Commissioner Thomas O. Platt forwarded the report to the Secretary of the Treasury. The report states that, if the Secretary has the power, all ships from cholera ports may be returned to the same wharf the cholera prevails. They furthermore ask the Secretary to appoint a conference with Commissioner Smith on the early date, either in New York or in Washington.

Health Officer Smith and Health Commissioner Otterson and Dr. Bell of Brooklyn consulted with Health Commissioners Bayles and Bryant of this city yesterday about cholera. Dr. Smith told what he had done to keep the cholera out of New York. He said that he had dealt with it as it came to him. He said that he had dealt with it as it came to him. SUDDEN DEATH OF DR. CARNOCHAN.

The Eminent Surgeon Fractured by Apoplexy, Following a Stroke.

Dr. John Murray Carnochan, one of the oldest and ablest of American surgeons, died suddenly yesterday of apoplexy at his home, 14 East 168th street. Dr. Carnochan received a slight stroke two months ago at his summer residence, Catonsville, near Nyack, on the Hudson. He was ill for a short time, and then he came back to New York, and he did not feel quite himself.

At 10 o'clock yesterday morning, shortly after getting out of bed, he went into an adjoining room for his usual morning bath. He heard his wife call, and he rushed into the bathroom, found him lying upon the floor. She helped him to his bed, but he soon lost consciousness and died.

Dr. Carnochan was born seventy years ago near Savannah, Ga. His father was a wealthy planter, who sent him to be educated at the High School and University of Edinburgh. After graduation, he came to New York and studied medicine under Dr. Valentine Mott. He was the favorite pupil of Dr. Mott, and he was a member of the New York Medical Society.

THE BOOMING NORTHWEST.

LITTLE TOWNS WITH BIG OPERA HOUSES AND ELECTRIC LIGHTS.

A Real Duluth-Tremonts Minneapolis and St. Paul-Railroads and Coal-Shall We Get Mixed Up with the Canadians? When Mr. Dewey forgot himself long enough to permit an inadvertent remark in the presence of a reporter, who appears to have been in sympathy with the land boom, he touched upon a subject of great interest at the West. We have many more acres than people in the older States of the Union; and in the new States and Territories they have some times more quarter sections than people.

Land literally goes begging out West, but, like Chicago, it is not being taken advantage of. The chief, or at least the most demonstrative, seat of the land boom in the Northwest at present is Duluth. This is the same Duluth which during so many years figured in Congress and elsewhere as a paper city. But it is now a real city, and it is a city of the future.

THE WOMEN'S CONGRESS.

Electors of Officers for the Twenty-Year Term. Mrs. Kewsey Makes Mrs. Howe Vice-President.

Men, unaccompanied by women, were very rare at the Congress of the Association for the Advancement of Women yesterday. There were just a few women in attendance, though, as on the day before, Mrs. Julia Ward Howe was named for President against her protest, and she persisted in declining the office because of enfeebled health. Dr. Julia Holmes Smith of Chicago was therefore chosen in caucus as the head of the ticket.
